STORM

You will see a play called Storm

You will come in to relaxing music and take a seat along the shore at the edge of an island.

Your name will be sung as part of the Welcome song.

Waves crash onto the shore and the island is full of noises.

You will meet the characters Prospero and his apprentice Ariel.
Prospero is a Magician.

Prospero and Ariel sing the 'Magic' song.

Prospero performs his magic, but Ariel turns it into a game.
This makes Prospero angry and he sends Ariel away.

Ariel returns with the wild creature Caliban.

Caliban wakes up and collects wood from the island.

Caliban thinks the island belongs to him and argues with Prospero who believes the island belongs to him.

Prospero sends Caliban off to go fishing.

Prospero tells Ariel to conjure up a storm and Caliban is washed up on the shore.

Prospero and Ariel help to bring Caliban back to life.

Caliban wakes up and the three agree to share the island.

At the end of the play, you will hear your name again in the Goodbye song.
