

Easter Hanging Decoration

1. First collect together your materials. You'll need scissors, glue, coloured paper, paint and paintbrushes, card to make your ring and an empty egg box.
2. Find a piece of cardboard and cut out a circle. I drew around a small plate for mine. You then need to draw a smaller circle inside this to make a ring.

3. Next cut up the egg box into sections. These sections will be your flowers.
4. Cut the edges of each section to form petals.
5. Paint your flowers in whatever colour you like and leave to dry

6. While your flowers are drying, find some coloured paper and cut lots of different leaf shapes to stick on the base of your decoration.

7. Once your flowers are dry, stick them on like this.
8. Finally add some centres to your flowers in whatever colour you like. I've chosen yellow and orange.
