

Easter Bunnies and Chicks

1. Collect all the materials you need: scissors, glue (or tape), coloured pens (or paint and brushes), coloured card or paper, a pencil and an empty egg box.
2. Cut two sections out of the egg box and neaten off the edges
3. Paint them in your chosen colour
4. While the paint dries, draw out your bunny ears, nose and whiskers, or your chick wings and beak. Both bunnies and chicks need eyes too!

5. Glue or tape the two halves together.
6. Once dry, stick on your bunny or chick features
7. If you want to add extra details you can do some things like this. Don't forget the feet and any other decorations you want to add!
